Carl Czerny (* 1791 in Wien, † 1857 daselbst), anfangs von seinem Vater Wenzel C. unterrichtet und später während dreier Jahre ein Schüler Beethovens, darf der Klavierlehrer Europas in der ersten Hälfte des 19. Jahrhunderts genannt werden. Schon mit 15 Jahren war er Wiens gesuchtester Klavierpädagoge, und die Reihe seiner unmittelbaren und mittelbaren Schüler von Döhler, Thalberg, Kullak bis zu Liszt ist fast unübersehbar. Als Komponist auf allen Gebieten von unheimlicher Fruchtbarkeit, (über 1000 Werke), haben sich gleichwohl nur seine Schulwerke für Klavier, namentlich die „Schule der Geläufigkeit;" „Schule des Legato und Staccato;" „Schule der Fingerfertigkeit;" Toccata und wie sie alle heissen, bis heute erhalten. Musikalisch flach, mussten sie infolge eines keinerlei Schwierigkeiten bereitenden, einfachen Inhalts und einer zu flüssigem Spiel gradezu zwingenden Anlage ihre Unentbehrlichkeit als unübertreffliche, noch heute eigentlich durch nichts zu ersetzende Hilfsmittel zur Ausbildung der Fingerfertigkeit und des perlenden Skalenspiels bewahren. In diesem Sinne dürfen sie noch immer die erste technische Grammatik jedes Klavierspielers genannt werden.

CARL CZERNY (born in Vienna in 1791, died there in 1857) who received his first instruction from his father, and was for three years a pupil of Beethoven, may well be called the Piano-teacher of Europe during the first half of the 19th century. At the early age of 15, he was Vienna's most esteemed piano-pedagogue, and the number of his own, and of his pupils' pupils,–from Döhler, Thalberg, Kullak to Liszt,– is almost legion. As a composer of all kinds of music he was uncannily prolific (over 1000 works), yet only his school-works for piano, more especially his "School of Velocity," "School of Legato and Staccato," "School of finger-technic" Toccata, and many others, too numerous to mention, have survived to this day. Though lacking musical depth, yet owing to their plain style presenting no difficulties, and to their being designed to secure pearling technic, they have become indispensible as an invaluable aid unsurpassed even to-day in cultivating finger technic and a pearling execution of scales.— In this sense, they may still be called the pianist's best manual of technic.

Charles Czerny (Vienne 1791 – 1857) travailla tout d'abord avec son père Wenzel Czerny, puis fut pendant trois ans élève de Beethoven. Czerny pourrait être appelé „le professeur de piano de l'Europe pendant la première moitié du XIXème siècle." Professeur estimé dès l'âge de quinze ans, le nombre de ses élèves „directs" ou „indirects," depuis Döhler, Thalberg et Kullak jusqu'à Liszt, est incalculable. D'une fécondité effrayante (il a laissé plus de *mille* compositions, conçues toutes dans le style ancien), seuls ses ouvrages d'enseignement pianistique (*l'Art de délier les doigts, l'Ecole de la Vélocité, l'Ecole du Legato et du Staccato,* la *Toccata,* etc.) se sont maintenus jusqu'à nous. Ecrites dans un style assez superficiel, leur absence de difficulté, la simplicité de leur contenu musical, cette unité de plan d'où découle la fluidité de l'exécution, tout cela devait assurer aux dites études une vogue durable. Et réellement, elles demeurent encore aujourd'hui indispensables et inégalées au point de vue de la dextérité des doigts et du perlé des traits. A ce titre, on doit continuer à les considérer comme la grammaire technique élémentaire du pianiste.
